

SANDESH GOPINATH SARFARE

Principal Software Engineer | Cloud Solutions Architect | AI-Enabled Full Stack Engineer

Navi Mumbai, Maharashtra, India | +91 9833833368 | sandesh_sarfare@yahoo.com | linkedin.com/in/sandesh-s-32a995ab/

PROFESSIONAL SUMMARY

Principal Software Engineer with 11+ years of experience designing, building, and scaling cloud-native enterprise platforms using .NET 8, AWS, Terraform, and modern distributed system architecture. Expertise in microservices, event-driven integration, serverless computing, infrastructure-as-code, cloud security, DevOps automation, BFF architecture, API design, cloud migration, observability, CI/CD governance, analytics platforms, and data engineering workflows.

Experience with AI-enabled analytics, predictive modeling, intelligent automation, and AI-assisted software engineering practices across enterprise and healthcare-focused solutions.

TECHNICAL EXPERTISE

.NET 8, ASP.NET Core Web API, Blazor WebAssembly, C#, Python, Angular, React.js, AWS (ECS, Lambda, API Gateway, DynamoDB, S3, SQS, SNS, Step Functions, EventBridge, CloudWatch, ECR, IAM, Route53, KMS, Secrets Manager, EMR Serverless, QuickSight), Terraform, Docker, Kubernetes, Jenkins, CI/CD, Microservices, Event-Driven Architecture, REST APIs, BFF, PySpark, OAuth/OIDC, xUnit, SonarQube, Distributed Systems, Data Pipelines, AI-enabled Analytics.

PROFESSIONAL EXPERIENCE

Principal Software Engineer — Greenway Health

10/2022 – Present

- Applied AI-SDLC practices across the Novare lifecycle covering requirements analysis, solution design, architecture, code generation, code review, testing, documentation and developer productivity.
- Led end-to-end solution architecture and development of the Novare mobile and application platform using .NET MAUI, C#, REST APIs and microservices.
- Defined application boundaries, service responsibilities, integration patterns, API contracts, data flows, security considerations and non-functional requirements.
- Architected AWS distributed platforms using .NET 8, ECS, Lambda, API Gateway, DynamoDB and Terraform; led on-premises to AWS migration initiatives.
- Implemented event-driven integration using SQS, SNS, EventBridge and background workers; delivered BFF architecture for Blazor WebAssembly.
- Engineered analytics workflows using PySpark, Lambda, Step Functions, EMR Serverless and Amazon QuickSight, including Generative Q&A; embedding.
- Established Terraform governance, IAM/KMS/Secrets Manager security patterns and CI/CD pipelines using Jenkins, Docker and SonarQube.

Senior Software Engineer — GEP Worldwide

03/2021 – 10/2022

- Developed enterprise applications using Angular and Azure cloud services.
- Led Cypress automation initiatives to improve software quality and regression coverage.
- Collaborated with stakeholders and engineering teams on scalable cloud solutions and mentored junior engineers.

Programmer Analyst — Intelegain Technologies

07/2019 – 02/2021

- Developed full-stack enterprise applications using .NET MVC, Angular, Node.js and Web APIs.
- Gathered requirements and translated business needs into scalable technical solutions.

Senior Software Developer — Techease Systems Pvt Ltd

03/2019 – 07/2019

- Developed Angular and Node.js enterprise applications and contributed to architecture modernization.

Software Engineer — Karishma Marine Solutions

06/2017 – 02/2019

- Developed ASP.NET MVC applications integrated with SQL Server and REST APIs; supported testing and deployment.

Software Engineer — Select Jobs Pvt Ltd

07/2016 – 06/2017

- Developed .NET Framework and Ionic applications and resolved production issues.

Software Developer — Grip Technologies Pvt Ltd

10/2015 – 07/2016

- Developed mobile and web applications using Ionic, AngularJS and Cordova.

Software Developer — Nich Ferns Pvt Ltd

01/2015 – 09/2015

- Developed web applications using .NET technologies and SQL Server.

Quality Analyst — Serco Group

2011 – 2014

- Conducted production audits, operational process training and quality assurance activities.

SELECTED PROJECTS

Greenway Revenue Analytics

Enterprise analytics and reporting platform with scalable data-processing workflows and cloud-native reporting.

Technologies: AWS, QuickSight, Lambda, PySpark, EMR Serverless, Terraform, Jenkins, .NET Core, Blazor

Greenway Clearinghouse Services

Enterprise cloud modernization including on-premises to AWS migration, serverless solutions and quality automation.

Technologies: .NET 8, AWS Lambda, S3, SES, Angular, Cypress, Terraform, Jenkins, Microservices

AI-Driven Clinical Risk Intelligence & Healthcare Decision Support

M.Sc. Data Science major project focused on patient risk factors, feature engineering, predictive modeling and clinical decision support.

Technologies: Machine Learning, Statistical Analysis, Predictive Analytics, Healthcare Data

EDUCATION

Master of Science (Data Science) — Symbiosis International (Deemed University), 2026, Awaiting Result

Bachelor of Science (Computers) — Sikkim Manipal University, 2014

CERTIFICATIONS

- AWS Certified Cloud Practitioner — Valid through April 2028
- AZ-900 Microsoft Azure Fundamentals
- AI-900 Microsoft Azure AI Fundamentals
- DP-900 Microsoft Azure Data Fundamentals

CORE COMPETENCIES

Principal Engineering Leadership · Cloud Architecture · AWS Solution Design · Platform Engineering · Enterprise Application Architecture · Distributed Systems · Microservices · Event-Driven Architecture · Infrastructure as Code · DevOps & CI/CD · Cloud Security · Data Engineering · Analytics Platforms · Predictive Analytics · AI-Enabled Solutions · Technical Mentorship · Agile Delivery
